## *Quality Policy Statement*

*We at MIRUS International Inc.  
and our affiliated company, MIRUS Magnetics Inc.,  
are committed to achieving excellence in all we do.*

*We strive to provide all of our customers with  
truly effective and reliable power quality products and services  
based on sound, innovative engineering.*

*Our ultimate goal is to delight our customers with the quality of our products and the measurable value they provide to them. In our pursuit of this goal, we shall approach all of our daily activities with only the highest degree of integrity.*

*To aid us in our program of continual product evaluation and quality improvement, MIRUS has developed a Quality Assurance System to comply with the requirements of CAN/CSA-ISO 9001-2000. This system effectively integrates and controls all aspects of our operation, which directly impacts upon the quality of our products and our commitment to our customers.*

*The Quality Assurance System has been designed and developed with the assistance of all relevant MIRUS personnel, and is considered central to our organization's operation and business philosophy.*

*The System itself is described by the Quality Manual and referenced Operating Procedures. The Quality Manual identifies the quality policies of MIRUS. The Operating Procedures define how each of these policies is applied at an operational level.*

*Michael Levin*  
President  
MIRUS International Inc.

*Tony Hovenaars*  
President  
MIRUS Magnetics Inc.

Generation and communication of this 'Quality Policy' is the joint responsibility of the Senior Management Teams of both MIRUS International Inc. and MIRUS Magnetics Inc. Implementation of the 'Quality Policy' is the responsibility of all employees within both organizations.
